

CABOCHONS

► Cabochons are a special collection of stones created from hand-molded glass. Using traditional glass making techniques, we produce them in an exciting array of shape and colour combinations. Preciosa's opaque and transparent colours imitate such genuine gems as diamond, ruby, topaz, sapphire and amethyst. We also offer fabulous imitations of all the best-known natural semi-precious stones. Our Special Stones are used mainly in the jewellery industry and can be tailored to meet each customer's specifications. All our Special Stones will retain their beautiful luster for years to come.

Pearl effects – Cabochons Hotfix

Hotfix Technique

Cabochons represent a true classic of the market. But the fact that they are field-tested by decades of use couldn't stop us from improving them! The new hotfix layer now makes application considerably easier.

Preciosa can currently supply you with these articles:

413 11 30 (Round Cabochon) in size 3–7 mm.

Slight deviations in colour shades are unavoidable.
